11th November, 1976

Mr. Ron B. Schiller
7657 La Bolsa Drive
Dallas, Texas 75248
U. S. A.

Dear Mr. Schiller,

Thank you very much indeed for your letter of the 4th November reporting strong reception of Radio Cayman's test programmes on 1555 kHz on our new 10,000 watt transmitter.

From what you tell us, you were certainly receiving this station which began testing on 27th October. Our 1205 kHz transmitter will be on the air shortly.

We do not issue QSL cards as yet, but you may take this letter for same.

I do remember your reporting to me while I was at Radio Anguilla and it is nice to be in touch again. As you say, the Cayman Islands are a particularly friendly place and would be well worth a visit.

With good wishes.

Yours sincerely,

R. G. Dunlop
Director of Broadcasting
